ANNOUNCEMENTS FROM THE CLINIC

Is the End in Sight?

March marks the one year point for COVID-19, and what a year it's been. With warmer weather approaching, vaccinations on the rise and it looking like new cases are decreasing, we look to the future with anticipation and optimism. Knowing the goodness of our God may we continue cultivate hope and encouragement in each other, our volunteers and our guests, trusting in the One that has carried us through the pandemic.

When it comes to our physical and spiritual health, both require our daily attention. We look and trust in Jesus, but we become weary when "the end" feels like it is not in sight. It may seem like the end is close but now is not the time to let up. As difficult and tiresome as it may be, stay diligent with washing your hands, cleaning surfaces, checking your temperature and properly wearing your mask. Be grateful to our Lord for the things He has shown & taught you during the past year. Let all of us continue in prayer knowing we can trust the only One that is truly in control!

- **Greg Kessler** V.P. of Health Services, Training, & Education

THE PRIZE OF THE BIWEEKLY PATIENT RAFFLE TICKETS ARE

Michael H.
"This is an unexpected blessing. I can't believe this, thank you so much!"

Gary H.
"I don't believe in going to the doctor, but after receiving this prize I might have to come more often"

We are looking for a volunteer that could provide four hours a week to clean the medical clinic. For details, please, contact WSHS Office Manager, Maria Asin at masin@wsm.org.

CLINIC CLOSED DAYS

Wednesday Mar 17 - all day
Monday March 22 - evening hours, 5-8PM.

Medical Dictionary of Health Terms: 3 words to memorize in March

Abdominoplasty: A procedure to remove excess abdominal skin and tighten the underlying stomach muscles. Also known as tummy tuck.

Abduction: Movement of a body part, such as an arm or leg, away from the center of the body.

Ablation: A form of treatment that uses electrical energy, heat, cold, alcohol, or other modalities to destroy a small section of damaged tissue.
